Office Action Summary

Art Unit: 3727

1. The amendments to claim 30 requested in the Preliminary Amendment filed August 13, 1998, have not been entered because they request the addition of more than five words. See 37 CFR 1.121(a)(2)(i), which states:

(i) Instructions for insertions and deletions: A claim may be amended by specifying only the exact matter to be deleted or inserted by an amendment and the precise point where the deletion or insertion is to be made, where the changes are limited to:

(A) Deletions and/or

(B) The addition of no more than five (5) words in any one claim; or

2. The amendments to claim 30 should be made in accordance with 37 CFR 1.121(a)(2)(ii) which states:

(ii) Claim cancellation or rewriting: A claim may be amended by directions to cancel the claim or by rewriting such claim with underlining below the matter added and brackets around the matter deleted. The rewriting of a claim in this form will be construed as directing the deletion of the previous version of that claim. If a previously rewritten claim is again rewritten, underlining and bracketing will be applied relative to the previous version of the claim, with the parenthetical expression "twice amended," "three times amended," etc., following the original claim number. The original claim number followed by that parenthetical expression must be used for the rewritten claim. No interlineations or deletions of any prior amendment may appear in the currently submitted version of the claim. A claim canceled by amendment (not deleted and rewritten) can be reinstated only by a subsequent amendment presenting the claim as a new claim with a new claim number.

3. In response to this communication, applicant is required to resubmit amended claim 30 in proper form.

4. It is noted that the second page of the Preliminary Amendment states that "[a]pplicant is herewith presenting claims 30-33 . . ." while the first page includes an instruction to cancel claim 31. Clarification is required.

5. It is further noted that claims 42-44 depend from canceled claim 39. Thus, it cannot be determined what they are drawn to.

#### Election of Species Requirement

6. This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. the bag illustrated in Figures 15, and
- II. the bag illustrated in Figure 45 and 46

Art Unit: 3727

7. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

8. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

9. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

10. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

11. If claims 42-44 are amended so as to be specifically drawn to one or more inventions that are independent of the inventions set forth above, applicant is required to include those inventions in this restriction requirement.
